SCHOOL COMMUNICATION AND PHONE POLICY

Each classroom has a telephone. Students can use this phone with teacher permission. Students that bring technology with the capacity to communicate outside of the school should be placed in the students' book bag or backpack upon entry to school grounds and should remain there until school is dismissed. Students that violate this policy will be warned by the teacher. Chronic misuse of the technology may result in the device being removed from the student. If this occurs the parent will be contacted. We ask that parents contact their student by calling the school rather than expecting students to respond to texts or phone calls from personal devices.
