## **Tips For Walking or Biking to School Safely**

---

- ★ *You deserve safe places to walk and bike to school. The following safety tips give you ideas for safe things to do on your walk or ride to school.*
- ★ *You should walk with an adult until you are at least 10 years old. You should hold an adult's hand when crossing the street and in parking lots.*
- ★ *Always cross the street at a corner or at a crosswalk and obey traffic signals; cross with a crossing guard if they are there.*
- ★ *Drivers may not always see you. They might be looking another direction or they may be distracted.*
- ★ *Do your best to make eye contact with drivers before crossing the street.*
- ★ *Walk on a sidewalk. If there is no sidewalk, walk on the left side of the street, facing oncoming traffic.*
- ★ *Look left, then right, then left again before crossing the street. Continue looking while you cross.*
- ★ *Wear light-colored clothing or clothing with reflective material to be more visible to drivers.*
- ★ *Put electronic devices away and keep heads up. Walk, don't run, across the street.*
- ★ *Slow down and stay alert. Watch out for cars that are turning or backing up. Don't dart out into the street or cross in-between parked cars.*
- ★ *Only cross in front of a bus when the driver says it is safe to do so.*
- ★ *Do not cross behind the bus or between parked cars, where a driver cannot see you.*
- ★ *Do not run onto a street for a ball, pet or any other reason. You should always play in a backyard or playground when parents are outside. Play away from streets or parking lots whenever possible.*

**Always wear a helmet  
when riding your bike,  
skateboard or scooter.**
